BASE YOUR AIRCRAFT AT THRUXTON

Whether you need straightforward grass parking, hard-standing apron parking with tie-downs, covered hangar space or a closed hangar with valet parking, Thruxton Airfield has a resident option to suit your aircraft and the way you fly.

WHY THRUXTON

HARD RUNWAY

Keep flying through the winter when grass-only airfields can be out of action.

VALET HANGARAGE

Our team handles every movement in and out of the closed hangars, which sit right beside the operating area.

NO LANDING FEES FOR RESIDENTS

Resident aircraft don't pay landing fees, and there's no cap on resident landings.

FUEL ON SITE

AVGAS and Jet A1 are both available.

RIGHT BY THE A303

Easy to reach by road for owners, syndicate members and passengers.

FLEXIBLE FLYING

Out-of-hours flying can be arranged, and night flying runs from November to mid-February.

SMALL AND FRIENDLY

A quieter, more flexible alternative to the busier regional airports.

YOUR OPTIONS AT A GLANCE

GRASS PARKING

From £100 + VAT

Our most cost-effective way to base an aircraft.

All resident parking is subject to contract terms and conditions. Prices shown exclude VAT.

GRASS PARKING

From £100 + VAT a month

Our most cost-effective way to base an aircraft at Thruxton. It suits private owners, syndicates and pilots who fly often and want to keep monthly costs down.

You still get everything that comes with being a resident: the hard runway for winter flying, fuel on site and no landing fees, however often you fly.

APRON PARKING WITH TIE-DOWNS

From £116.67 + VAT a month

Apron parking puts your aircraft on hard standing, with tie-down points to keep it secure when the wind gets up. There's no soft ground to deal with after heavy rain, so getting out to fly is straightforward whatever the season.

For a small step up from grass, it's a practical choice for aircraft that are in and out regularly.

OPEN BAY HANGAR

From £258.33 + VAT a month

Our open bay hangars put a roof over your aircraft and keep the worst of the weather off it, with an open front so there are no doors to deal with when you want to fly.

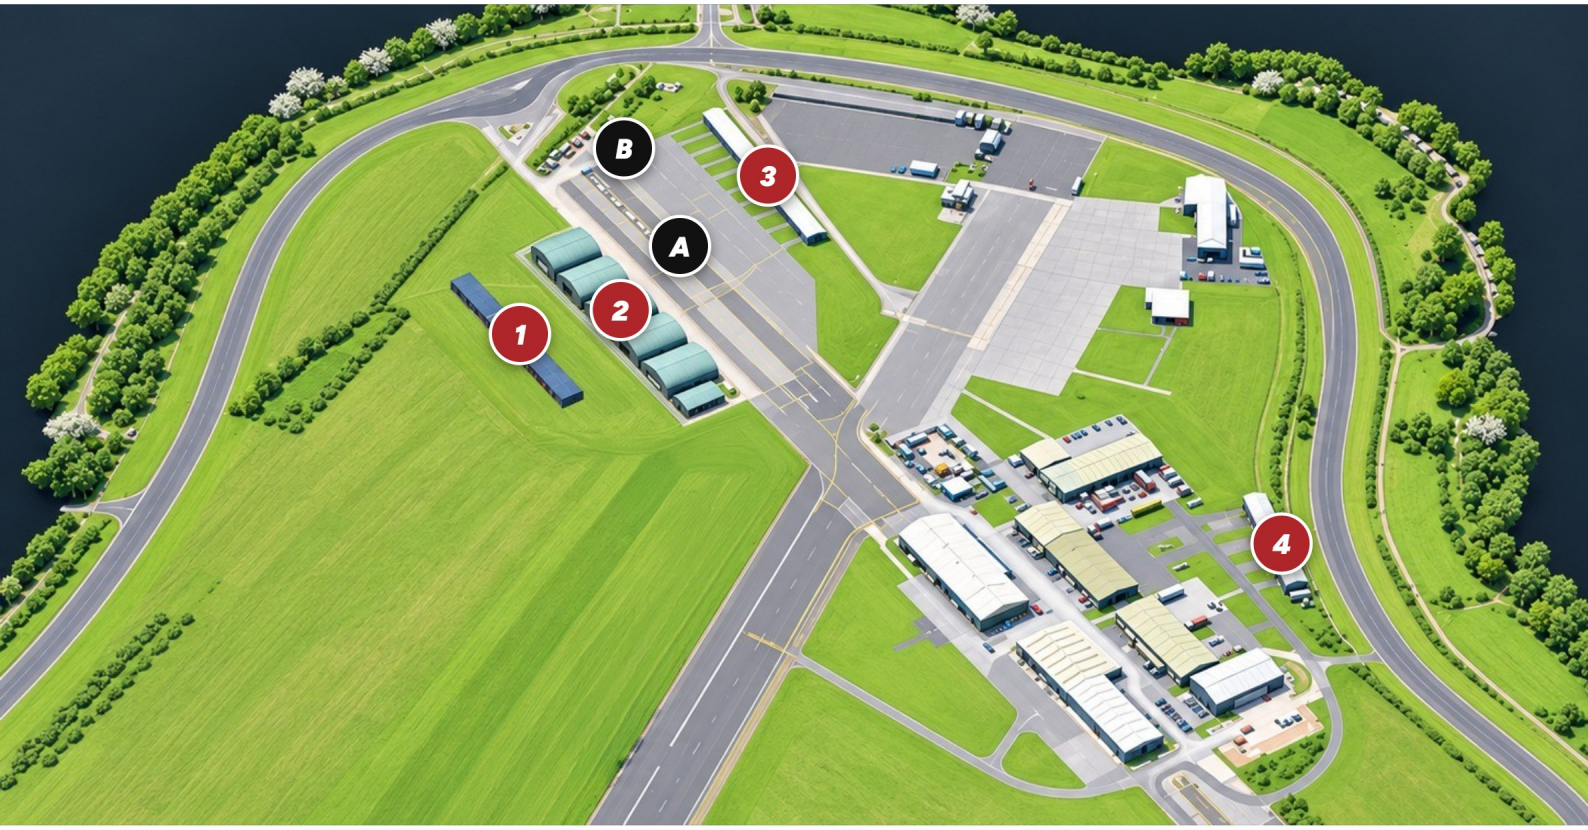

There are two types. Standard bays give you covered parking at our lowest hangar price. Premium bays are in our newer hangars, closer to the runway and the refuelling point.

OPEN BAY TYPES AND PRICES

BAY TYPE	WHAT YOU GET	BAY WIDTHS	PER MONTH (EX VAT)
Standard open bay	Covered parking at our lowest hangar price	10.3m or 11m	**£258.33**
Premium open bay	Newer hangars, closer to the runway and refuelling	11.6m or 14.5m	**£404.17**
